Dear Mr. John Roberts,

I am writing to you in response to your Internet advertisement requesting applicants for the position of Chemist. I have over 4 years of experience as a chemist and it allows me to say with confidence that I would bring a hard-working attitude to this role.

My goal is to provide a broad foundation in chemistry that stresses scientific reasoning and analytical problem solving with a molecular perspective. Your company is developing rapidly and the research carried out in your laboratories is ahead of its time. So I am sure that exactly in your company I can use my skills and experience most productively.

I would like to meet with you to discuss how my education and experience would be consistent with your needs. Waiting for your answer. Thanks!

Best Regards,
Tracey Gold
