

JENNIFER DOU

ART DIRECTOR

Dear Mr. Jackson,

I am presenting my resume in response to your ongoing job position for an Art Director at ResumesBot. I am sure that in the wake of investigating my capabilities you will need to meet face to face to talk about this energizing chance. With a Bachelor of Science in Visual Communications and 23 years in publicizing I would carry extra demonstrable skill and inventiveness to your officially effective office.

In my present position as Art Director at V&R Communications I am a piece of a group that was granted Best Print Ad of the Year by the Cleveland Society of Communicating Arts. I oversee and work with staff picture takers craftsmen and visual fashioners to build up the general style of publicizing efforts including TV advertisements. After dialogs with customers to build up the best approach and style to suit the item I create spending plans and timetables facilitate imaginative division exercises and present starter structures for endorsement.

In my initial vocation I functioned as Art Director at Pennington Publishing where I was in charge of the page format of inventories and magazines. With involvement in print TV and the visual parts of web architecture I accompany an abundance of experience.

Thank you for your time and consideration!

**Sincerely,
Jennifer Dou**
