Dear Mr Bond,

I saw the opening you have for a Dentist at Dental Clinic, and I am very interested in the job position. I believe my past experiences and personal skills would translate wonderfully to the opportunity within your organization.

For the past 5 years I worked as a Dentist in Esthetical Dental Center in New York. During my work I recommended myself as a high-quality professional and a hardworking person. My skills include:

- Ability to distinguish normal from abnormal
- Ability to comprehend, reason, integrate, analyze, evaluate and problem solve
- Ability to demonstrate critical thinking skills
- Ability to work independently
- Ability to comprehend three-dimensional relationships

I appreciate your reading my cover letter and considering me for the job you want to fill.

Sincerely,
Ron Weasley
