WORK EXPERIENCE

INTERNSHIP

Favorite Technologies Inc. | Aug. 2019 - Oct. 2019

Developed a social networking iOS App, based on a map location and personal interests.

Designed and implemented several features in the map module with Google maps SDK, including showing users' current locations and real-time nearby activities on the map

Create and developed a chatting module using Firebase SDK.

Built UI views of user signup and account setting, and used Alamofire SDK to exchange data with the backend.
