WORK EXPERIENCE

MACHINE OPERATOR

AZEK Building Products, Pittsburgh, PA
May 2016 - Present

- Observe machine operation to detect defects and/or machine malfunction and notify supervisor.
- Install customizations according to order specifications. Prepare necessary documentation.
- Read and interpret work orders to determine the type and location of customization.

MACHINE OPERATOR

Manpower, Pittsburgh, PA
Apr. 2012 - Jan. 2016

- Handled Material
- Polished
- Operated Machines (saws, grinders, drills, hand polishers, etc.)
- Fabricated edges, sides, corner radius, angles and sink cutouts using tools required in the process.
- Verified all pieces were checked, fabricated and returned to the same cart number and checked in the tracking sheet as complete.
- Verified quality of finished workpieces by inspecting, comparing to templates and measuring their dimensions.
- Recorded product and processing data on specified forms when needed.
- Assisted in minor repair and maintenance on assigned equipment.
- Worn all Personal Protective Equipment (safety glasses, earplugs, waterproof gear, face mask, etc.)

MACHINE OPERATOR

American Axle & Manufacturing PA
June 2010 - Dec. 2012

- Cooperated with Sr. Machine Operator(s) and maintenance staff to resolve issues (e.g. line downtime, product quality).
- Participated in start-up, change over and shutdown of operating equipment.
- Performed clean, inspect, and lubricate tasks on equipment, as necessary per our site requirements
- Performed changeovers including disassembly and reassembly of necessary equipment, adjustments, and calibrations.
