PRIMARY CARE PHYSICIAN

Genesis HealthCare and Rehabilitation,, | Jan. 2010 – Apr. 2014

- Organized medical reviews to aid the clinical assessment process and to make functional capacity outcome determinations for customers
- Evaluated all applicable customer documentation, including the clinical assessment.
- Managed both acute and chronic conditions.
- Involved in the admission and discharge process of all her patients.
- Reviewed and updated the immunization status of all pediatric patients.
- Performed preventive health services for all pediatric patients by schedule according to the American Academy of Pediatrics Standards.
- Participated in departmental meetings and interdisciplinary community committees, as well as peer review performance improvement meeting activities.
- Reviewed and managed all abnormal laboratory results and other tests.
- Ensured that allergies are properly documented in all patients.

PRIMARY CARE PHYSICIAN

Public Health Diversion Center, AZ, | June 2008 – Dec. 2009

- Evaluated patient health by interview and by obtaining and/or updating medical history. Documents patient care services by charting in patient and department records.
- Performed physical examinations and provided treatment and counsel. Recognized and evaluated patients who require the immediate attention of a physician and, when necessary, initiated emergency medical treatment without supervision.
- Determine abnormal conditions by administering or ordering diagnostic tests and laboratory studies. Followed-up on x-rays and laboratory data. Interpreted diagnostic test results.
- Performed therapeutic procedures such as injections, immunizations, suturing, post-operative care and management of wound care and infections. Utilized diagnostic techniques, such as observation, palpation, percussion or auscultation.
