## SECURITY GUARD

Dear Mr. Jackson,

I am writing as to the opening I saw for Security Guard at ResumesBot. Your organization appears to be an energizing and provoking work environment, and I realize I would fit right in. Because of my defensive nature and past work understanding, I would be an ideal fit for your Security Guard position.

My profession started not long after secondary school. I went to ABC, and upon graduation, I changed into the workforce. I worked at TradeLot as a support aide for a long time. This was time all around spent. In addition to the fact that I learned the intricate details of expert life, however I additionally increased important information of what it intended to be dependable and responsible.

From support work, I proceeded onward to Boston University. I was working for the offices office, and this demonstrated to be a colossal encounter. The offices division at a college is in charge of such huge numbers of basic errands: upkeep of the structures, planning and cleanup after occasions, and security of offices and work force. It was a wide coming to and instructive development experience.

Being a Security Guard at ResumesBot consolidates some of the variables I am searching for in a profession. I appreciate the procedure and effectiveness of verifying a structure, either medium-term or during an occasion. A certified Security Guard must fill in as an invulnerable line of assurance for the organization, and I am more than capable. I am an open individual with a well disposed manner, yet I have sharp senses and give faultless consideration to detail. I will stay focused on guaranteeing that your business stays secure yet in addition an inviting domain.

Thank you for your time and consideration!

Sincerely,  
Angelina Thompson
