

Angelina Perry

Veterinary

Dear Mrs. Plitt,

I am writing to express my interest in the position of a Veterinary. I think that my skills may be put to good use in your company. I am a graduate of Boston University where I studied chemistry and veterinary medicine under some of the nation's leading veterinary minds.

Working with animals is my childhood dream. I grew up in a village and all my life I was surrounded by animals - pigs, chicken, horses, chickens, turkeys, dogs, cats. Some of them were often sick and I always asked my grandmother to let me take care of them myself, as it brought me great joy and the feeling that I was making this world a better place.

I have 5 years of professional experience in Pet Club Brothers and 3 years of experience in Love My Pet company. I'm currently looking into positions in the USA that would allow me to progress in my Veterinary career. I am happy that I found your job opening because I think that we can be useful to each other.

I appreciate your time to read through my application!

Yours sincerely,
Angelina Perry
